[Inquiry](#)

Manufacturer: [Microchip Technology, Inc](#)

Package/Case: LFBGA256

Product Type: Programmable Logic ICs

RoHS: RoHS Compliant/Lead free 

Lifecycle: Active

General Description

These flash FPGA devices are ideal for general purpose functions such as bridging functions, input/output (I/O) expansion and conversion, system management, secure connectivity etc. Microchip FPGAs are used by customers in Communications, Industrial, Medical, Defense, and Aviation markets.

With Clear Advantages

- Lowest Power
 - Reduce total power by ~20-40%
- Proven Security
 - Protection from Overbuilding and Cloning
- Exceptional Reliability
 - SEU immune Zero FIT Flash FPGA Configuration
 - Reliability safety critical and mission critical systems

Key Features

6K logic elements

11 Math blocks (18x18)

2 PLLs and CCCs

703K bits RAM

DDR Controller - LPDDR/DDR2/3

Offers design security

Temperature - Commercial, Industrial, Automotive (T1)
