[Inquiry](#)

<b>Manufacturer:</b>	<a href="#">Silicon Laboratories Inc</a>
<b>Package/Case:</b>	QFN20
<b>Product Type:</b>	Communication & Networking ICs
<b>RoHS:</b>	RoHS Compliant/Lead free 
<b>Lifecycle:</b>	NRND

### General Description

#### Key Features

- Low power consumption
- FSK, GFSK and OOK modulation
- Ultra low power shutdown mode
- Digital RSSI
- Wake-up timer
- Auto frequency calibration (AFC)
- Power ON-reset (POR)
- Antenna diversity and TR switch control
- Configurable packet handler
- Preamble detector
- Low battery detector
- Integrated voltage regulator
- Frequency hopping capability
- On-chip crystal tuning
- Low BOM
