

Serial Flash Configuration Device

Manufacturer: [Intel Corp](#)

Package/Case: SOP-8

Product Type: Programmable Logic ICs

RoHS: RoHS Compliant/Lead free 

Lifecycle: Obsolete

General Description

EPCS1SI8 is a serial configuration device that is manufactured by Intel Corporation. It is a non-volatile memory device that is designed to store configuration data for Field Programmable Gate Arrays (FPGAs), Complex Programmable Logic Devices (CPLDs), and other programmable devices.

Key Features

1-Mbit density

SPI (Serial Peripheral Interface) interface

Low-power consumption

High-reliability

Small form factor

RoHS compliant
