[Inquiry](#)

Manufacturer: [Littelfuse Inc](#)

Package/Case: TO-220

Product Type: Thyristors

Lifecycle: Active

General Description

This triac is designed for industrial and consumer applications for full wave control of ac loads such as appliance controls, heater controls, motor controls, and other power switching applications.

Key Features

Sensitive gate triggering in 3 modes for AC triggering on sinking current sources

Four mode triggering for drive circuits that source current

All diffused and glass-passivated junctions for parameter uniformity and stability

Small, rugged, thermowatt construction for low thermal resistance and high heat dissipation

Centre gate geometry for uniform current spreading
