

## Low Power Advanced Security Capabilities MPU

<b>Manufacturer:</b>	<a href="#">Microchip Technology, Inc</a>
<b>Package/Case:</b>	TFBGA-196
<b>Product Type:</b>	Embedded Processors & Controllers
<b>RoHS:</b>	RoHS Compliant/Lead free 
<b>Lifecycle:</b>	Active

## General Description

The SAMA5D22 is a high-performance, low-power Arm Cortex-A5 CPU-based embedded microprocessor (MPU) running up to 500 MHz, with support for multiple memories such as DDR2, DDR3L, LPDDR2, LPDDR3, and QSPI and eMMC Flash. The device integrates powerful peripherals for connectivity and user interface applications, and offers advanced security functions (Arm TrustZone®, tamper detection, secure data storage, secure boot, etc.), as well as high-performance crypto accelerators AES, SHA and TRNG.

The SAMA5D22 is qualified for extended industrial temperature range operation (-40°C to 105°C external temperature).

The SAMA5D2 series is delivered with free Linux® distributions, MPLAB X IDE, MPLAB Harmony v3 and bare metal C examples.

Microchip provides fully tested and validated power management solutions complying with the SAMA5D22 specific power sequencing needs for various supply and DRAM configurations-enabling a risk-free solution immediately on first power-up. Go to the [TreeLink tool](#) -> DC/DC converters and select SAMA5D2 to find more details.

## Key Features

Low System Cost and High Value Integration:

Peripheral Touch Controller

Embedded audio subsystem

0.8mm ball pitch package reduces PCB design complexity

Simple power management scheme

Ultra-Low Power Consumption:

Low-power architecture for extensive battery life

5uA in backup mode

State-of-the-Art Security:

Secure Boot

Execution of encrypted code with an “on-the-fly” encryption-decryption process

Integrity Check Monitor of the memory content

Hardware encryption engine

Tamper pins and secure key storage

Extensive Ecosystem:

Free Linux® distributions

MPLAB X Integrated Development Environment

MPLAB Harmony 3

Complete set of C examples for bare metal users

Multiple third-party software and hardware partners
