

Trans IGBT Module N-CH 600V 150A 5-Pin

Images are for reference only

[Inquiry](#)

Manufacturer: [Mitsubishi Electronics](#)

Package/Case: MODULE

Product Type: IGBT Module

Lifecycle: NRND

General Description

Key Features

- :
- Low Drive Power
- Low VCE(sat)
- Discrete Super-Fast Recovery Free-Wheel Diode
- High Frequency Operation
- Isolated Baseplate for Easy Heat Sinking
