[Inquiry](#)

Manufacturer: [STMicroelectronics, Inc](#)

Package/Case: TO-92

Product Type: Thyristors

Lifecycle: Active

General Description

Thanks to highly sensitive triggering levels, the 0.8 A P0102DA SCR thyristor is suitable for all applications where available gate current is limited. This device offers a high blocking voltage of 400 V, ideal for applications like interrupters circuits. The P0102DA is available in through-hole TO-92 package.

Key Features

0.80A ON-state RMS current

Repetitive peak OFF-state voltage up to 600V

Triggering gate current from 5 to 200 μ A
